Crewsaver to showcase the Atacama drysuit range at Boot Düsseldorf 2018

Visitors to Boot Düsseldorf 2018 will be able to head to the Crewsaver stand (Hall 11, B42) to view the newly released Atacama drysuits. With 3 layer breathable fabric, the Crewsaver Atacama Pro and Atacama Sport drysuits rival their namesake desert as the driest place on Earth. The Glideskin neoprene wrist and neck seals, plus latex socks, further help to keep the water at bay; meaning your boating doesn't have to end when the summer season does. Both drysuits are designed to work with how

the body moves, and incorporate articulated arms and legs for increased freedom of movement. In addition, the Atacama Pro has an integrated lower stretch mesh back panel with adjustable braces to create a bespoke custom-fit feel, without the price tag.

Head of Crewsaver's design department, Nigel Parkes says, *"We take great pride in the comfort offered by our products and this can certainly be seen in the flexibility and the 'off-the-shelf-custom-fit' style of each suit. Both the Atacama Pro and Atacama Sport are designed to work in harmony with the most demanding watersport enthusiast!"*

Atacama Pro – RRP 559 Euros

Designed using 3 layer breathable technology and enhanced waterproof properties to keep you warm and dry whilst out on the water. Plus, Cordura reinforcement protects high-wear points such as the seat and knee; providing you with a drysuit that can keep pace with your demands.

- ✓ 3 layer breathable fabric with enhanced waterproof properties
- ✓ Lower back stretch mesh panel for increased comfort and flexibility
- ✓ YKK Aquaseal flexible zip construction
- ✓ Articulated arms and legs for increased freedom of movement
- ✓ Cordura reinforced double layered seat and knees
- ✓ Expandable leg pockets with D-ring attachment
- ✓ Adjustable wrist and ankle cuffs
- ✓ Glideskin neoprene wrist and neck seals
- ✓ Removable braces
- ✓ Internal pocket
- ✓ Reflective detail
